

News From The Hill

VOLUME 3, ISSUE 8

OCTOBER 2011

Accessorizing your safe

Necklace Hanger: Attaches to back cover of safe door and includes 13 pegs to hang necklaces tangle free.

Four Drawer Cabinet: Top drawer includes a three compartment ring organizer and a seven compartment jewelry organizer. Drawers two and three include a three compartment necklace organizer and four compartment watch holder. The bottom drawer is open for easy access to large, more bulky items.

Emtek's New Introductions

In the recent years Emtek has been persistently introducing new and improved items to their collections. Their extensive variety and innovative selections makes them one of our more popular manufac-

turers with clients. Their most recent introduction has been their concealed screw knob and lever sets, as well as their 28 degree knob and

lever latches.

Emtek hardware was always available in the past only with

exposed screws on the interior sides of the door. This is no longer the case. They are currently offering their lever and knob selections with fully concealed screws on both sides of the door. This gives the hardware a very clean and polished look. For those who like the look of the ex-

posed screws, that option is still available.

Something that Emtek is coupling with their new hidden screw sets is the 28 degree latch. This is a wonderful device that requires less rotation on the handle to disen-

gage the latch mechanism. It is very helpful for people with ergonomic concerns. For more information on either of these introductions please call or stop by today!

Coming Soon!

As our showroom grows and we bring in new product lines and updated products from long standing manufacturers, we like to keep everybody up to date and informed. We are very excited to announce we will be bringing in a wonderful high-end bath line from Samuel Heath. We introduced the Perkomatic Door closers offered by this

company in last month's issue, but they offer more. Samuel Heath designs and manufactures high quality Bathroom accessories and architectural hardware in classic and contemporary styles. Displays are on their way and will be available to see and touch before the end of the month.

Another up coming expansion

is from Top Knobs. They are introducing their new Passport Collection. It consists of several new series inspired by architectural masterpieces from around the world like the Trevi Fountain in Italy and the Great Wall in China. These boards will be arriving in our showroom in the months to come. Stay tuned!
