Stone Hill

Save 20%
On all stone Products

Stone Hill offers beautiful creations of art, hand fashioned from either solid marble, granite or river rock. We specialize in marble fireplaces, water features, fountains, and medallions. Our fireplaces use stone from around the world and are hand crafted in Columbia. Bring in a copy of this Newsletter and receive 20% off your next stone purchase.

Looks vs Security

As many of you know, Nob Hill originally shared its store with Floyd Total Security. The two businesses related by ownership, had an opening in the wall of the building between them. If you stood in this opening between Floyd and Nob Hill you would hear interestingly different dialogs. On the Nob Hill side you would hear about the finish, feel, and the look of the hardware. On the Floyd side you would hear about the strength, construction method & materials, and overall security of the hardware.

In today's world, the look and feel of the hardware is gaining importance, however the security it provides must not be compromised for this. There are many solutions both in the mechanical as well as electronic security market that will satisfy both sides of this debate.

The place to start is with the quality of the lock itself. If that is not present the overall security of the lock will not be beneficial. Hardware such as Baldwin, Rocky Mountain, Medeco, and other mortise and quality tubular deadbolt locks provide security

as well as a variety of attractive styles and finishes. High security lock cylinders can be installed in most quality locks. They provide only the owner the ability to have duplicate keys reproduced. These locks can also be keyed so that the owner's key fits every lock, but a separate key fits only

one entry lock. This is an ideal feature for kids and domestic help.

Other improvements include both mechanical and electronic digital locking systems that work in conjunction with your decorative hardware choices. These provide the convenience of being keyless as well as the ease of changing the combination by authorized persons.

Remember, most break-ins still occur at doors. Done properly, we can help protect your family and your belongings by making it very difficult for thieves to force their way into your home. Ask one of our Nob Hill representatives to go over the mechanical and electronic keying options to compliment your beautiful hardware.

Rocky Mountain Expands Their Builder Series

Exciting news from Rocky Mountain! They have just expanded the number of options available in their builder series. In the past, this series was limited to three escutcheons, two knobs, and two levers.

The expansion of this series allows you to choose from three knobs,

three levers, and four different escutcheons in two different sizes. Each of these is also avail-

able in 9 different finishes. Another advantage to ordering from the builders series is, it allows you to have Rocky Moun-

tain door hardware for around \$230.00 a door!

Feel free to call any of our sales representatives with any questions. Samples of the newly added items will be arriving in our showroom shortly. Until then please check them out at www.rockymountainhardware.com
