Healthy Hardware?

Colonial Bronze has recently introduced a new way to fight bacteria, mold and mildew. Their hardware is now available with a coating on it called Saniguard. Saniguard does not actually kill bacteria, but disrupts the cellular processes of the microbe, inhibiting its growth. With proper cleaning and care the billions of silver ions in Saniguard will remain effective at inhibiting bacterial growth for the useful life of your hardware.

The Tanner's Craft comes from the family of products made by Colonial Bronze, a leading manufacturer of fine brass hardware since 1927. This new collection melds materials from the best of two worlds-the finest leather

by Edelman Leather and the solid brass creations of Colonial Bronze. Elegant in design and functional in nature, The Tanner's Craft makes ordi-

Fall is fast approaching, and another Minnesota winter is not far behind. Now is the perfect time to design and order your new natural stone fireplace surround to cozy up to when the snow begins to fly. Stone Hill can help you select from a variety of pre-designed styles as well as assist in creating a

nary objects extraordinary. We are happy to carry this versatile design tool which allows you to create your

own look by selecting from thirty-nine metal finishes and sixteen leather colors and textures.

Edelman Leather is also the only leather available with Crypton protection. This protection improves the

leather's ability to resist soiling, stains and moisture without sacrificing the look or feel of the product.

Nob Hill currently has The Tanner's Craft collection on display in our showroom. Please stop by and check out

the variety of knobs, pulls, switch plate covers, and more available through this innovative line.
